

ADVISORY NOTIFICATION

Rugby Lamp Wire Harnesses

Att'n: Rugby Sales & Service – All Rugby Customers Receiving 1847743 & 1847744
Release Date: 4/19/2017

Rugby Mfg has recently learned that due to a Vendor design change, LED lamps PN 1847743 & PN 1847744 may not fit as securely as desired after installation. Picture A shown below does not contain the grommet rib as shown in picture B. Picture B is of the prior version which contains an additional rib to secure the lamp within the grommet. While the lamp pictured in A is functional and may be used, it does not meet the quality expectations of Rugby Mfg. If you have received LED lights as shown in picture A and feel they do not sufficiently secure the lamp, please contact Rugby Mfg customer service to have replacement lamps sent to you. The original lamps will not be required to be returned.
